Slow worm							1							
<b>AMPHIBIANS</b>														
Common Frog		**	**	*g	*g	*y	1	*+~						
Common Toad			1	*g			1							
Smooth Newt				*g	*g	*1y								

**Notes:**

Numbers in cells are maxima seen that month

b = burrow, b+ = active burrow/sett

d = dead

f = carrying food/nest material

g = nearby gardens (Iffley Rd & below)

h = heard only (song or calls)

i = incubating

j = juveniles, not newly fledged

n = night visit

o = flying over

s = singing (seen or heard)

t = bird seen at nest

y = young seen (not comprehensive pre-2011!)

~ = lots on one occasion

DB = Donnington Bridge

IM = Iffley Meadows [especially if seen heading north]

LM = Long Meadow only

K = Kidneys only

ML = Meadow Lane

**Observers:**

Detailed monthly reports: Anthony Cheke, Laurie Burrell

Incidental observations: Tim Lee, Greg Webster, Steve Roby, Ruth Ashcroft, Claire Malone-Lee, Ben Sheldon
